

Alessandro Bertoncelli - Senior Data Manager & Analytics Engineer

• **Date of birth:** 29/05/1979 • **Nationality:** Italian • **Address:** Bologna, Italy • **Phone :** +39 380 9024136
• **Email:** alexbert1979@gmail.com • **Linkedin:** <https://www.linkedin.com/in/alessandro-bertoncelli/>

PROFILE

Senior Data Manager with **26 years** of experience driving data management, analytics engineering, and cloud-based data quality solutions across banking, financial, media, e-commerce, luxury, and customer marketing sectors.

Conducted 15 years of governance and security of sensitive Italian credit data, directed with the highest precision a total of **50** projects, some of which international and in English language.

Deep **expertise in SQL** and **data quality**, provided DWH implementations, data modeling, BI solutions and migrations evolving into a trusted **team leader** overseeing a growing technical team.

Committed to advancing as a **tech leader** by adopting latest technologies and delivering robust, trustworthy, clean data solutions.

JOB EXPERIENCES

2019 – present

BitBang - Analytics Engineer, Data Steward, Team Leader

Managed deliveries and coordinated 30+ customers, presales and R&D, team leader tasks

- **BigQuery:** Built pipelines and deliveries supporting BI, AI and Analytics teams for global customers.
- **Analytics:** designed data models from scratch with GA4, Adobe, Piano data, DBT & Dataform orchestration, 200+ use cases delivered for 20+ customers, achieving trust and doubling capacity.
- **AI :** BigQuery conversational analytics, data agents, AI and ML functions, glossary, Dataplex catalog
- Minor projects also in Azure, Databricks, Oracle, Snowflake platforms.
- **Advanced SQL:** Engineered processes of data management, cleaning, governance and quality activities on multiple variants: Redshift, MySQL, BigQuery, Spark Sql.
- **Sources:** multiple experiences (banking, finance, adv, crm, ecommerce, cdp, media, analytics, sap, lot).
- **Data quality:** designed and sold solid framework from scratch using scoring, weighting, Python scripts, creating alerting with custom contents and daily **AI-powered** digests.
- **Data preparation:** tested and sold innovative tools (Alteryx, Paxata, Trifacta, Glue).
- **Modern BI:** data preparation for a wide range of industries on many platforms (PBI, Tableau, Data Studio, Looker, Domo) achieving strategies, insights, growth, data-driven culture.
- **Omnichannel marketing:** High-impact projects built from scratch, increasing ROI and stewardship.
- **Mdm:** Looker semantic layer, Cdp "Golden record" international project, Irion EDM certification.
- **Classroom lessons:** advanced SQL, Data Quality concepts and solutions, analytics data secrets.

2004 – 2019

CRIF Group - Data Manager & Datawarehouse Engineer

Owned responsibility, maintenance, tuning, data quality of the Group Enterprise DWH ensuring stability, performance, and governance for sensitive credit data.

- **Security:** Integrated 30 sensitive sources across all national credits, payments, registry data.
- **Data Management:** Oracle, DataStage, advanced SQL-PL, Kettle.
- **Technology migrations:** led 3 major migrations to Exadata, rebuilt execution plans, minimized business disruption while improving performance and stability.
- **DBA responsibilities:** performance tuning, storage optimizations, db maintenance.
- **BI :** reporting solutions provided to sales, analyst, C-Level management for national corporate events, media, communications, marketing, Credit Bureau, Rating Agency, directional Steering Committee.

2000 – 2004

Finmatica Group - Product Specialist

Oracle SQL data migrations for local governments and main Italian hospitals, classroom coach.

Intesa San Paolo - Software Engineer in ATM & payments unit.

OFFICIAL ACHIEVEMENTS

- Congratulatory email from Head of Data Strategy & CRO of our major client, increased **trust** and contract.
- Contacted by a former customer who was keen to start a new collaboration inside a new company, **new brand** achieved.
- 2025 evaluation form, rating 4 / 5 from a multinational customer, the best rating among all teams evaluated, increased trust.
- Created a data quality solution, the vendor's CEO asked for a live call and collaboration, prestigious recognition of my work.
- 2026 congratulatory email from a worldwide customer for a solution that provides real-time "golden paths" of their users.

MILESTONES

2019 – present

BitBang - Successfully solutions awarded by customers

Complete (cloud agnostic) **analytics data model products** built from the ground up:

- Dbt, Dataform for ingestion and orchestration, Collibra for catalog, governance.
- Designed in **BigQuery**, adapted and translated for Databricks, Snowflake.
- Email alerts with attachments and intelligent data monitoring **powered by AI**, Vertex, Gemini.
- Centralized kpi framework, dynamic rules, Golden record, custom attribution, metadata monitoring.

Technology and Platform migrations for worldwide customers:

- Google Universal to Ga4, Google Analytics to Piano, Adobe to Google
- BI tool switch: Domo, PBI, Tableau, Looker Semantic layer, Data Studio.

2004 – 2019

Crif Group - New Enterprise DWH

- First team to adopt Exadata, upgrade to X6 ("First delivered to Italy"), 3 migrations on schedule.
- Expansion to 30 Data Sources, encryption and GDPR tasks, suppliers coordination.
- **80% time reduction**, re-engineered architectures, increased visibility, all Italian population rated in a night, **tripled revenues**.
